LEAGUE SETUP - NEXT STEPS

Thanks for taking the time to set up your 2026 fantasy football league on MyFantasyLeague.com. **Your league ID is 30124** - please make a note of it.

The next steps in setting up your league include:

1. Define the positions your league uses on the Starting Lineup Setup page. **(Done!)**
2. Choose a pre-packaged scoring system **(Done!)** , or define your own custom scoring system via the Custom Scoring System Setup page. **(Done!)**
3. Set up all fantasy franchises in your league via the Basic Franchise Setup page. **(Done!)**
4. Set up your franchises abilities in your league via the Franchise Abilities page.
5. Set up your Divisions and Conferences via the Division/Conference Setup page. **(Done!)**
6. Set up your league draft start time on the League Calendar setup page **(Done!)** , the Draft Order setup page **(Done!)** , and the Draft Timer setup page. **(Done!)**
7. Setup your league auction parameters on the Auction Setup page.
8. Setup your league Injured Reserve settings on the Injured Reserve Setup page. **(Done!)**
9. Setup your league Taxi Squad settings on the Taxi Squad Setup page. **(Done!)**
10. Set up your league salary cap parameters on the Salary Cap setup page **(Done!)** , and individual player salaries on the Salaries/Contracts setup page. **(Done!)**
11. Set up rules regarding add/drops via the Add/Drop Setup page and other league transactions via the League Calendar setup page **(Done!)** , and the Trades Setup page. **(Done!)**
12. Choose a fantasy schedule via the Fantasy Schedule Setup page. **(Done!)**
13. If your league has playoffs, you can choose one of our pre-packaged playoff brackets, or set up your own playoff bracket. **(Done!)**
14. If your league has an entry fee, or fees for transactions, you can enter that on the Accounting Setup page . If you're looking for an easy way to collect your entry fee payments, be sure to check out LeagueSafe.

15. Customize your league pages appearance via the Home Page Modules and Tabs Setup page **(Done!)** and the Select A Skin page **(Done!)**
16. Indicate which franchise in the league is your franchise on the Select Commissioner's Franchise page. **(Done!)**
17. Next, you may invite other franchise owners to join your league. **(Done!)**
18. Finally, many more league setup parameters can be found on the League > Setup page - feel free to explore all of the site options there to get a better feel for all of the many things you have control over with your league on MyFantasyLeague.com - and if you get stuck along the way, be sure to click on the "Help Center" link in the upper right-hand corner of the page you're on for detailed tips to help you on your way.

KEEPER LEAGUE UPGRADE - NEXT STEPS

Thanks for taking the time to upgrade your league to 2026 on MyFantasyLeague.com! This important message will detail the next steps you need to perform to make sure you're ready for the 2026 season. To see a list of improvements and changes for 2026, check out our Site News page.

- Most importantly, all of your league rules, including all scoring rules and all waiver rules, are automatically carried over from year-to-year. So, unless your rules have changed since last season, we **strongly discourage** you from making any un-needed edits to your league rules.
- All franchises are also carried forward each season, so owners need to log in with their MFL Account. They can then access their 2026 team from either the MFL Dashboard or from the 2025 league home page.
- Looking for a new schedule? If you wish to change your schedule, but keep your current divisions, go to the Commissioner Setup > Select Packaged Schedule page and select a new one. A new schedule will then be generated for your league. And if you change your divisions, be sure to select a new schedule afterwards so that the schedule applies to the new division alignment.

For Keeper/Dynasty leagues: If your league is a keeper (or dynasty) league, whereby some or all players are kept on rosters from year to year, please read on. If your league is not one of these, you can ignore the rest of these instructions. Next steps in the upgrade process for keeper leagues include:

1. Transfer some or all 2025 roster players over to this 2026 league on the Transfer Rosters page.
2. Verify and save your 2026 draft settings on the General Draft and Timer Setup page.
3. Set up your initial 2026 draft order on the Draft Order Setup - All Rounds page. Then use the Draft Order Setup – One Round to add any additional picks or remove picks as needed (not pertaining to traded draft picks)
4. Import 2026 future draft pick trades on the Import Future Draft Picks page.
5. Use the Dynasty and Keepers Setup page to indicate if your league is a dynasty or keeper league. If it's a keeper league, you will need to specify how many players owners can keep and set up an event for owners to select their keepers on the League Calendar. The owners will use the Draft/Auction > Select Keepers page to select their keepers. After the keeper deadline has passed the commissioner can process these on the Load Keepers page. See the Help Center - Commissioner Tutorials for additional details.
6. If your league tracks contracts, go to the Salary Cap Setup page to reduce the contracts of all players by 1.
